WHAT IT TAKES

By invite: 3+ jobs, rating 4.7+, hired again at least once, no missed deadlines.

WHAT YOU GET

Build alongside the ustads on Studio projects, and train to become one.

01

We bring the clients

You never have to pitch, chase or argue about scope. Ustad Studio finds the business, agrees the work and stays their contact.

02

You never chase money

Your pay is agreed before you start each job, and you are paid within 3 days of the client paying.

03

Good work brings more work

Clients who rate you 4.5 or more are offered you first next time, and "hired again" counts most in our ranking.

Who can join?
Any SkillMentor student who has finished a course, or is about to.

Does it cost anything?
No. Joining, the skills test and the interview are free for SkillMentor students.

What is in the skills test?
20 questions in 30 minutes, then a real task in 48 hours that your mentor marks. Fail it? Retake after 14 days, and your mentor tells you what to fix first.

Will clients see my phone number?
No. They see your first name, last initial, your seals and your work. Ustad Studio is always their contact.

Is work guaranteed?
No one can promise that. We offer you work when a client's job matches your skill, and strong seals and reviews get you picked more often.
